

DD60SI7

Integrated Single DishDrawer™ Dishwasher

Fisher & Paykel Single DishDrawer™ dishwashers are designed to make doing the dishes easier than ever before. Sized to suit small kitchens and small loads.

Integrated

Dimensions

Depth	569 - 573mm
Height	Ⓐ 410mm
Width	Ⓑ 599mm

Features & Benefits

What is DishDrawer™ Technology?

The DishDrawer™ dishwasher's internal microprocessor controls how the wash mechanism operates based on the load and wash cycle. The spray arm rotates at different speeds depending on the wash cycle selected to deliver better dish care.

Ergonomic

DishDrawer™ dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at bench height so loading and unloading requires minimal bending.

True Half Load

The drawer holds a true half load for guilt-free small washes and fast turnaround of your dishes.

Reliable Performance

The combination of intelligent technology and simple mechanics means more space for your dishes, greater reliability and excellent wash performance.

Easy to Load

DishDrawer™ dishwashers include a range of flexible racking options. The cutlery basket can be customized for different utensils. Folding tines can be folded flat to accommodate a full load of pots. Pitch-adjustable tines can accommodate normal plates, deep bowls or slide completely out of the way. Height adjustable cup racks allow for different shapes and sizes and provide wine glass supports.
